Our Facilities

NHAVA SHEVA

- » Container Freight Station (CFS) facility at Nhava Sheva handles maximum volumes and offers a great advantage in terms of connectivity to the port
- » Ample space for bonded and non-bonded warehousing, along with the presence of customs officials for smooth operations
- » Innovative processes and equipment including e-tariff, e-Proforma, e-Payment technology, online Export SB declaration and Import Receiving, etc. to reduce redundancies and significantly increase efficiency

CHENNAI

- » One of the earliest to come up in the region and situated just 9 km from the port, offering huge location benefit
- » Reasonably shorter transit times, given that the road to the port experiences high traffic congestion
- » Convenient international operation with an international trans-shipment hub catering to customers worldwide – a first-in-India service
- » State-of-the-art technology platforms, experienced teams, world-class equipment and processes, and 24x7 safety and security

KOLKATA

- » Fastest turnarounds at Kolkata port and the convenience of last-mile delivery
- » End-to-end services such as customs clearance, freight forwarding, LCL and FCL consolidation services along with over-dimensional cargo handling and single window freight handling
- » Ideal gateway to India's north-eastern regions as well as neighboring countries in the Indian subcontinent

DADRI

- » Strategically important owing to its connectivity to major ports in India and industrial areas in the north Indian hinterland
- » Significant time and cost-saving LCL consolidation services for export and import cargo
- » Well equipped with modern equipment such as reach stackers, and forklifts that handle palletised cargo and open yard cargo, ensuring smooth and seamless transfer from rail to road and vice versa

MUNDRA

- » Situated close to the Mundra port, an effective gateway into India's hinterland.
- » With liners focusing on the Mundra port because of its faster service and quick turnaround time for vessels
- » A CFS facility of international standards in the vicinity of the port
